PROFESSIONAL SUMMARY

Software Developer with 3 years of experience at Softtek, building business applications for enterprise clients with Microsoft Power Platform (Power Apps, Power Automate, Dataverse), Power BI reports and generative AI solutions with Azure OpenAI. I also build web interfaces with React, Next.js and TypeScript. Graphic Designer (University of Buenos Aires) with a focus on UX/UI and clear interfaces for business users.

WORK EXPERIENCE

Software Developer | Softtek | Nov 2023 – Present

- Power Apps: end-to-end development of canvas apps for enterprise clients with Dataverse, SharePoint and Power Fx, from user discovery and data modeling to screen design. These include a master data management app and a project tracker with photo evidence uploads.
- Power Automate: cloud flows for approvals, notifications and data sync across Dataverse, SharePoint and Office 365, plus RPA with Power Automate Desktop for systems without an API.
- Power BI: multi-page reports and dashboards with DAX measures and data modeling, to track KPIs and compare periods.
- Azure: internal chatbot with Azure OpenAI and Azure Cognitive Search (RAG pattern) that answers from company documentation.
- Appian: hospital episode management application.

Teacher - Visual Arts Workshop | School No. 758, Ministry of Education of Chubut | Nov 2021 – Mar 2024

PROJECTS

Cuentas Claras - Personal finance app | TypeScript, React, Vite, Supabase, Google OAuth, Power BI, Vercel
Web app in production and in daily use, with Google login, data synced across devices and credit card due date alerts. The data feeds a Power BI dashboard. Full design, development and deployment. Demo: cuentas-claras-iota-ten.vercel.app

Real estate landing pages | Vite, Leaflet, OpenStreetMap, responsive design, UX/UI, Vercel
Two landing pages with their own visual identity for real properties in Patagonia, with an interactive floor-plan tour and mobile-first design. Art direction, UX/UI, development and deployment. Demo: casa-lago-puelo.vercel.app

Memento Mori - Printable life-in-weeks poster | TypeScript, React, Vite, CSS print, Vercel
App that generates a poster from a date of birth, with export to vector PDF and 300 dpi PNG in A4 or A3, in Spanish and English. Runs entirely in the browser. Demo: mementomori-calendar.vercel.app

DigitalMoneyHouse - Digital wallet | May 2023 – Jun 2023 | TypeScript, Next.js, Material UI, GitLab
Academic capstone project for the Front End specialization of Certified Tech Developer. Role: Front End Web Developer.

DigitalBooking - Accommodation booking app | Oct 2021 – Nov 2021 | React, AWS, GitLab, testing, Scrum
Academic capstone project for the Certified Tech Developer program. Role: Front End Web Developer.

TECHNICAL SKILLS

Low-code and data: Power Apps, Power Fx, Power Automate Cloud, Power Automate Desktop (RPA), Power BI, DAX, Dataverse, SharePoint, Microsoft Excel, Appian
AI and cloud: Azure OpenAI, Azure Cognitive Search, RAG, AWS, Vercel
Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Flexbox, Tailwind CSS, Material UI, Styled Components
Backend and databases: MySQL, MongoDB, Supabase, REST APIs
UX/UI design: Figma, Adobe Photoshop, Adobe Illustrator, Adobe Lightroom, Adobe After Effects
Tools and methodologies: Git, GitHub, GitLab, Postman, Scrum, Kanban

EDUCATION

Professional Certificate in Data Visualization Skills | ITBA School of Innovation | Feb 2025 – Apr 2025
JavaScript and TypeScript Programming | UTN Buenos Aires | Feb 2024 – Apr 2024
Low-Code Power Apps Developer | UTN Buenos Aires | Oct 2023
Certified Tech Developer - Front End Specialist | Digital House | Mar 2021 – Jul 2023
Graphic Designer (bachelor's degree) | FADU, University of Buenos Aires (UBA) | Mar 2014 – Mar 2021
English Language and Literature | Instituto I.L.I., Esquel | Mar 2005 – Dec 2011

LANGUAGES

Spanish: native | English: advanced (C1)
